### PORTFOLIO

### ABOUT ME

I'm a highly skilled frontend developer with strong knowledge in web development and creating interactive and appealing user interfaces. With extensive experience in designing and developing web applications using modern technologies such as HTML, CSS, JavaScript and React. Able to work in a team, collaborate with designers and other developers to create scalable and optimized solutions.

### EXPERIENCE

#### • JUL 2022 - DEC 2022

#### FRONTEND DEVELOPER

##### METRICOG

Develop and maintain web pages, this includes writing HTML, CSS, and JavaScript code and working with tools and frameworks like React.

Optimize website speed and performance, This involves ensuring that the website loads quickly and is easy to navigate.

#### • FEB 2022-JUN 2022

#### FRONTEND DEVELOPER

##### Agendapp

Write and maintain HTML, CSS, and JavaScript code to develop web pages and interactive web applications.

Perform testing and debug UI errors to ensure product quality. Collaborate with designers and other team members to ensure the user interface is attractive, easy to use, and meets project requirements.
